

How to use the Barn Door Asset Pack In URP and HDRP

1. Import the BarnDoorAssetPack inside your project.
2. Delete the **Materials** and **Prefabs** folders.
3. Go to the **URP&HDRP_versions** folder.
4. You should see both **HDRP_BarnDoorAssetPack** and **URP_BarnDoorAssetPack**. Select the one needed and press **open** in the inspector window.
5. Import the Materials and Prefabs.
